Digital Transformation?

5 REASONS TO USE OUR CODELESS APP-FABRIC

encanvas

We get you

It's not about apps, it's about ideas. It's how to answer the next question, the new business model, or strategy. You need apps to drive your business engine.

More than that, you want a unified data ecosystem that means <u>all</u> your data can be re-used to make decisions and deliver a 360-degree view of your business.

Read 5-reasons why encanvas is right for you.

1

Change at the speed of light

Faster to market, faster to adapt

Competitive advantage comes from being the first to market, the ability to adapt to change as it happens, take ideas into solutions better than any other business in your discipline. That's what encanvas brings to its user community.

Take your business improvement ideas to their conclusion using one tool-set.

Enjoy the benefits of best-in-class customer experience and back-office savings faster

2 Many apps, one data model

You can't re-use data easily when it's distributed across a multitude of apps and locations.
Thanks to AppFabric technology and massively-scaling software architecture, you can build as many apps as you need and organize them on **one platform that produces a single re-usable data architecture**.

3

A new level of automation-anytime, anyplace, anywhere!

Today, few companies know which of their processes are fully-automated, partially automated, or manual.

Encanvas is a private-cloud deployed platform that supports the operation of private and public applications.

Advanced security features bring unrivalled transparency and control to enterprise data.

It **digitalizes the DNA of your enterprise** and helps you to design, formalize and automate your business one process at a time.

4 Lowest cost design, deployment and operation

Encanvas creates apps without coding so you don't need dev teams or scrums, just encanvas and a good idea.

It also includes codeless data connectors to integrate with your favorite third-party software easily.

Once installed, it supplies advanced cloud library management to allow all deployments to be managed centrally. And our VERSIONING technology means you only need to upgrade apps when it suits you!

5 Everything in the box you'll ever need

We've designed encanvas so you can take your ideas all the way into professional software apps using ONE TOOL. It offers all the building blocks you'll ever need to build apps without coding. We've also gone a step further with our HYPER-PLUGIN that allows you to embed existing code, script, DLLs, data visualizations, AI and more into the encanvas apps platform for unrivalled innovation and growth opportunities.

A few things you can take for granted.

We're committed to your success. That's why every customer is allocated a **Single-Point-of-Contact** throughout their life with us, from the first app development to the latest.

We **safeguard your data**. Ask us for our data security whitepaper

We are a **fair and ethical business**, always ensuring through our policies and behaviours we offer equal opportunities to all

We do our bit to **keep the planet** how we all like it

We offer affordable answers to your technology questions. You always know what you're paying for. **No surprises.** That means almost no vendor lock-in. No project over-runs or disappointments. No enforced upgrades.
