

Encanvas Fundamentals

4 Modules | 3.5 Hours

Course Objectives

Learn the fundamentals of using Encanvas and how you can self-author enterprise Live Wire-frames and applications without coding. Our Fundamentals course will equip you with the skills you need to produce simple but complete relational database powered web and mobile-web applications; to be able to design sites, construct data models, create forms, manage and mashup data, publish to web and create enquiry forms, charts and reports.

Who Will the Course Benefit?

For business analysts and consultants with limited knowledge of databases that want to create Live Wire-frames. Learn how Encanvas works and how to apply it in order to **scope solutions**. Delegates will learn how to approach a project, perform basic design tasks including data integration, data model design, forms design, publishing data structures into a relational database, formalising email escalations and notifications etc, automating information flows and much more. Armed with this knowledge, learn how to publish your live wire-frames.

Prerequisites

You should have a reasonable understanding of MS Windows and, preferably, an authoring or data-centric application such as MS Excel or MS Access.

- Designed for experienced business analysts
- Computer literate
- Familiarity with desktop apps
- Basic understanding of how relational databases work

Course Outline

Delegates will learn the fundamentals of how Encanvas can be used to design Live Wire-frames and apps in Encanvas. It is comprised of the following modules:

1. Introduction to Encanvas
 - Understanding Business Orchestration and Digital Platforms
 - How Live Wire-frame Projects Work
 - How Encanvas Supports Live Wire-framing
 - Meet the Encanvas HPaPaaS Ecosystem
 - Data Challenges and Solutions
2. Designing with Encanvas Create
 - Getting familiar with the Encanvas Create Screen Layout
 - Screen Toolbars and Elements
 - Design Layers
 - Design Objects
3. How Projects Work
 - Data Design

- Process Design
- Site Design
- Data Governance and Security
- Publishing and Living with Apps
- Support and Version Control

4. Creating and Publishing Your First Canvas

- Getting to grips with Encanvas Create and publishing your designs to Web, PC or Mobile

Materials

Delegates will receive a Training Course Manual to take away together with a Certified Encanvas Professional Certificate upon completion of the course.

Personalised Training Courses

Most courses can be delivered onsite or closed at a training centre for your delegates only. Please [Contact Us](#) for full details and costs.

Suggested Follow-on Courses

- Advanced User / Analyst

Course Fees

Charges are as follows:

Number of delegates	Charges
1 to 3	\$685
4 to 6	\$495
6+	\$375

Cancellation / Terms and Conditions

Cancellation Terms:

Notice Period	Charges
21 days or more prior to course	Free
14 to 20 days	10%
8 to 13 days	20%
Less than 7 days	35%
